

Killer Christmas Cake

1 box yellow cake mix
1/4 cup vegetable oil
1 1/4 cups water
4 large eggs
1 tub coconut pecan frosting

Preheat oven to 350 degrees. Grease and flour pan (if you're using the [Christmas Tree Bundt](#) pan, the baking spray with flour in it is a must!). Mix cake mix, oil, water and eggs in bowl as directed on package. Fold in coconut pecan frosting. Bake at 350 degrees for about the same time as directed on cake mix package by type of pan you are using. Cake is ready when it pulls back from the sides of the pan and a toothpick inserted comes out clean. Sift a little powdered sugar over the top before serving (make sure the cake is cool). That's it!

It also makes a great snack cake anytime of the year that travels well because the frosting is on the inside.
